CTV Calgary is pleased to announce its participation in the Calgary Region Immigrant Employment Council (CRIEC) mentoring program.

On July 20th CRIEC visited the station to introduce Cherwyne del Rosario to her mentor Jeff Little. The mentoring duo took part in an orientation session to help them “kick start” a successful mentoring relationship.

CRIEC – in partnership with Calgary employers and community organizations – has now organized more than 160 such mentorships. By making connections with established professionals, the program helps skilled immigrants develop effective job search strategies, build a professional network, and learn about their profession in a Canadian context. The program also strengthens the ability of Calgary employers to attract and retain talent.
